INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Eagle River Water and Sanitation District

We have audited the accompanying financial statements of the Eagle River Water and Sanitation District (the "District"), as of and for the year ended December 31, 2020, which collectively comprise the District's basic financial statements as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Eagle River Water and Sanitation District as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

AVON: (970) 845-8800
ASPEN: (970) 544-3996
FRISCO: (970) 668-3481

Other Matters

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis in Section B be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Management's Discussion and Analysis in Section B in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison and debt service schedules in Section E are not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. The budgetary comparison and debt service schedules have been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The statistical data in Section F are presented for purposes of additional analysis and are not a required part of the basic financial statements. The statistical data have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**EAGLE RIVER
WATER & SANITATION
DISTRICT**

**Eagle River Water and Sanitation District
Management's Discussion and Analysis
December 31, 2020**

The discussion and analysis is designed to provide an analysis of Eagle River Water and Sanitation District's (the District) financial condition and operating results and to inform the reader on the District's financial issues and activities.

The Management's Discussion and Analysis (MD&A) should be read in conjunction with the District's financial statements.

Financial Highlights

In 2020, overall net position decreased by \$938,734. As part of the long term capital improvement program, the District spent cash on capital assets of \$16,436,920 (capital outlay). This construction was partially funded by the 2019 and 2020 bond proceeds. The remaining proceeds from the 2019 and 2020 bonds were held as restricted cash and investments at December 31, 2020. In addition, the District's capital assets were depreciated \$9,658,816.

The District's 2020 financial activity generated an increase of \$29,818,259 in net position on a budgetary basis. In accordance with Generally Accepted Accounting Principles (GAAP), \$9,658,816 of capital asset depreciation was expensed, which does not represent cash funding for capital assets in the current period. The District reconciliation from budgetary basis to GAAP basis, which includes depreciation expense, can be found on page E3 of the financial statements. The net result was an increase in net position of \$938,734 for 2020, compared to a \$539,023 increase in 2019.

In 2020, total revenues were \$34,129,254, which was an increase of \$240,964 over 2019 levels. Service fees revenue increased \$1,866,631. This was a result of a increases in water usage and service rates. Operating revenue increased \$2,810,100. This was a result of an increase in contract services provided. Additional details can be found on page E1 – E3 of the financial statements.

In 2020, total expenses were \$35,067,988, which was an increase of \$640,675 over 2019 levels. The increase was largely attributable to the higher expenses associated with general and administrative costs, specifically related to debt issuance costs associated with the 2020A and 2020B issuances. Additional details can be found on page E1 – E3 of the financial statements.

The water service rate structure is designed to encourage wise use of water and is based upon the customer's Single-Family Equivalents (SFE) usage. Water service rates in 2020 were increased from 2019 rates. The water service base rate is \$16.60 per SFE. The usage rates for tier one (0 to 9,999 gallons) is \$2.80 per 1,000 gallons. The usage rates for tier two (10,000 to 19,999 gallons), tier three (20,000 to 29,999 gallons), tier four (30,000 to 39,999 gallons) and tier five (40,000 and over) are \$4.90, \$8.58, \$12.87 and \$19.31 per 1,000 gallons, respectively. The Capital Replacement Program fee was \$5.76 per month per SFE. The Debt Service base rate is established to provide a reliable revenue source for repayment of the 2012 Wastewater bonds, 2017 Wastewater bonds, 2017 Water bonds and 2019 Water bonds. For 2020 the rate established was \$5.82 per month per SFE for the 2012 Wastewater bonds, a decrease from the 2019 rate of \$5.89 per month per SFE. The 2017 Wastewater bond rate was established at \$3.05 per month per SFE for 2020, which was the first year collected. The 2017 Water bond rate was established at \$6.45 per month per SFE for 2020, which was a decrease from the 2019 rate of \$6.48 per month per SFE. The 2019 Water bond rate was established at \$2.55 per month per SFE, which was the first year collected.

Water service rates in 2019 were increased from 2018 rates. The water service base rate is \$15.66 per SFE. The usage rates for tier one (0 to 9,999 gallons) is \$2.64 per 1,000 gallons. The usage rates for tier two (10,000 to 19,999 gallons), tier three (20,000 to 29,999 gallons), tier four (30,000 to 39,999 gallons), and tier 5 (40,000 and over) are \$4.62 and \$8.09, \$10.11 and \$12.64 per 1,000 gallons, respectively. The Capital Replacement Program fee was \$5.49 per month per SFE. The Debt Service base rate is established to provide a reliable revenue source for repayment of the 2009 Wastewater bonds, 2012 Wastewater bonds, and 2017 Water bonds. For 2019 the bond rates were established at \$3.00, \$5.89, and \$6.48 per month per SFE, respectively.

Overview of the Financial Statements

The financial statements of the District are presented as a special purpose government engaged only in business type activities - providing water and sewer utility services.

The *Statements of Net Position* present information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in the net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statements of Revenues, Expenses and Changes in Net Position* present information that reflects how the District's net position changed during the past year. All changes in the net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods.

The *Statements of Cash Flows* report the District's cash flows from operating, capital and related financing, and investing activities.

These financial statements distinguish functions of the District that will be principally supported by service charges and Taxes. The functions of the District include effective and economical operation of water and wastewater sanitation systems within the jurisdictional boundaries of the District. The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the financial statements.

Net Position:						
Net investment in capital assets	18,595,051	68,378,627	86,973,678	16,149,288	79,417,563	95,566,851
Restricted:						
Debt	1,836,096	5,919,812	7,755,908	1,954,096	3,278,450	5,232,546
Unrestricted	5,689,721	14,608,071	20,297,792	7,730,969	7,435,746	15,166,715
Total Net Position	<u>26,120,868</u>	<u>88,906,510</u>	<u>115,027,378</u>	<u>25,834,353</u>	<u>90,131,759</u>	<u>115,966,112</u>

As noted earlier, net position may serve, over time, as a useful indicator of the District's financial position. In the case of the District, assets exceeded liabilities by \$26,120,868 and \$88,906,510 for water and sanitation, respectively, as of December 31, 2020 and \$25,834,353 and \$90,131,759 for water and sanitation, respectively, as of December 31, 2019.

The largest portion of the District's net position reflects its investment in capital assets, less any related debt used to acquire those assets that is still outstanding, excluding unspent bond proceeds. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's net investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**Eagle River Water and Sanitation District
Management's Discussion and Analysis
December 31, 2020
(continued)**

NET POSITION (continued)

During 2020, overall net position decreased \$938,734. Current and other assets increased \$36,721,343. The majority of this increase is due to the District issuance of Series 2020A Wastewater improvement bonds in 2020.

As of December 31, 2020, total net capital assets are \$168,516,530, which is an increase of \$6,774,890 from the 2019 amount of \$161,741,640. The change in net capital assets of \$6,774,890 is net of the current year additions, deletions, and depreciation. Capital asset details can be found on pages D13 – D14.

During 2020, total liabilities increased \$37,552,588. The increase in total liabilities is related to the issuance of Series 2020A Wastewater improvement bonds.

During 2019, overall net position decreased \$539,023. In 2019, current and other assets decreased \$13,586,771. The major reason for this decrease was the refunding of the 2009B Wastewater revenue bonds by the 2017 crossover refunding bonds, which were held in escrow and reported in cash until the crossover date.

Capital asset additions net of deletions in 2019 of \$4,621,068 and depreciation were part of the District's long term capital improvement program.

During 2019, total liabilities decreased \$13,252,575. The decrease in liabilities is related to 2019 debt refunding.

Non-operating expenses:						
Interest expense	808,026	2,532,808	3,340,834	762,740	3,162,889	3,925,629
Treasurer's fees	43,633	58,549	102,182	42,694	56,544	99,238
Total Expenses	8,244,638	26,823,350	35,067,988	8,057,753	26,369,560	34,427,313
Change in Net Position	286,515	(1,225,249)	(938,734)	(586,673)	47,650	(539,023)
Net Position - Beginning of Year	25,834,353	90,131,759	115,966,112	26,421,026	90,084,109	116,505,135
Net Position - End of Year	26,120,868	88,906,510	115,027,378	25,834,353	90,131,759	115,966,112

In 2020, total expenses were \$35,067,988, which was an increase of \$640,675 over 2019 expenses of \$34,427,313.

Operating expenses increased \$1,222,526 in 2020. The increase was largely attributable to the higher expenses associated with administrative costs, specifically debt issuance costs, in 2020.

In 2019, total expenses were \$34,427,313, which was an increase of \$1,347,660 over 2018 levels.

Operating expenses increased \$1,174,861 in 2019. The increase was related mostly to water operations and wastewater treatment expenses, employee housing, and general and administrative costs.

**Eagle River Water and Sanitation District
Management's Discussion and Analysis
December 31, 2020
(continued)**

CAPITAL ASSETS AND DEBT ADMINISTRATION

The District's investment in capital assets at December 31, 2020 and 2019 amounted to \$168,516,530 and \$161,741,640 (net of accumulated depreciation), respectively. This investment in capital assets includes land and easements, water rights, treatment plants, distribution systems, employee housing, computers, equipment and vehicles. Capital assets are shown on the Statement of Net Position at the cost on the day of acquisition.

Most of the water and storage rights currently used by the District were provided by previous government water providers at no cost to the District. In accordance with Governmental Accounting Standards Board (GASB), only owned water and storage rights are shown on the District's Statement of Net Position at historic cost, totaling \$1,496,416. This cost represents mostly legal expenditures to establish the District's ability to use these rights to provide water to its customers and some additional acquisitions of new rights. Also in accordance with GASB, the investment in Eagle Park Reservoir Company Stock, which provides a valuable source of raw water supply, is not reflected in capital assets, but is shown in Other Assets at the historic cost of \$3,453,442. Management of the District believes the actual value of these water and storage rights used by the District to be much greater than historical cost at December 31, 2020. See the Schedule of Water and Storage Rights in the Statistical Section (pages F10-13) for additional information. The change in capital assets in 2020 is as follows:

	Water				Sanitation

Management's Discussion and Analysis
December 31, 2020
(continued)**

CAPITAL ASSETS AND DEBT ADMINISTRATION (continued)

Additional information on the District's capital assets can be found on pages D13 – D14 in Note III - G in the Notes to Financial Statements.

Long-term Debt

At December 31, 2020, the District loans payable to the water loan for Eagle Park Reservoir shares from the Colorado Water Conservation Board (CWCB) had \$829,476 outstanding. Also, the Water General Obligation Bonds issued in 2011 and 2012 for water system improvements had an outstanding balance at December 31, 2020 of \$5,920,000. The 2017 Water Revenue Refunding Bonds had outstanding principal of \$11,050,000. The 2019 Water Revenue bonds had outstanding principal of \$3,700,000. The 2012, 2017 and 2020 Sanitation District Revenue Bonds had principal outstanding of \$74,080,000. The 2016 Sanitation District General Obligation Bonds had principal outstanding of \$20,995,000. Other changes in debt in the current year are representative of scheduled reductions on long term obligations.

At December 31, 2019, the District loans payable to the Colorado Water Resources and Power Development Authority (Authority) for sanitation facilities were paid in full. The water loan for Eagle Park Reservoir shares from the Colorado Water Conservation Board (CWCB) had \$910,535 outstanding. Also, the Water General Obligation Bonds issued in 2011 and 2012 for water system improvements had an outstanding balance at December 31, 2014 of \$6,620,000. The 2019 Water Revenue bonds had outstanding principal of \$3,825,000. The 2012, and 2017 Sanitation District Revenue Bonds had principal outstanding of \$37,405,000. The 2016 Sanitation District General Obligation Bonds had principal outstanding of \$21,510,000. Other changes in debt in the current year are representative of scheduled reductions on long term obligations.

Additional detail on debt is in Note III-H in the Notes to Financial Statements.

BUDGET VARIANCES AND FUTURE CONSIDERATIONS

Budget Variances

In 2020, budgeted revenues were \$71,487,031. Revenues came in over budget expectations by \$28,136,964. The variance is mostly due to the budgeted proceeds on bond issuances which was higher than anticipated. The expenditure original budget was \$58,358,504, which was amended to \$75,541,872 for capital projects and bond refunding payments carried forward from previous years. Actual expenditures of \$69,805,736 were \$5,736,136 under budget, mainly due to multi-year capital project spending projects being carried forward.

2021 Budget Considerations

The District will continue to promote wise use of water and support a comprehensive water conservation program. Additionally, the Authority will explore opportunities to develop or acquire new water resources.

In 2021, the approved revenue budget is \$41,717,681 and the approved expenditure budget is \$31,003,923, including \$45,255,227 of new capital additions.

REQUESTS FOR INFORMATION

This report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: Linn Brooks, General Manager, Eagle River Water and Sanitation District, 846 Forest Road, Vail, Colorado 81657.

NOTES TO THE FINANCIAL STATEMENTS

**EAGLE RIVER
WATER & SANITATION
DISTRICT**

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020

I. Summary of Significant Accounting Policies

Eagle River Water and Sanitation District (the "District") was formed July 1, 1996, pursuant to an agreement to consolidate the sanitation functions of the Upper Eagle Valley Consolidated Sanitation District and the water service functions of the Vail Valley Consolidated Water District, both of which are located in Eagle County, Colorado. The District, a quasi-municipal corporation, is governed pursuant to provisions of the Colorado Special District Act. The District was established to ensure a more effective and economical operation of water and sanitation systems within the jurisdictional boundaries of the District. Seven elected board members govern the District.

The 1996 consolidation of Upper Eagle Valley Consolidated Sanitation District and Vail Valley Consolidated Water District was accomplished pursuant to Colorado law which specifically provides that a separate ad valorem tax be levied against the area comprising the consolidating districts which, together with any other special rates, tolls, fees or charges for service within the consolidating District area, will be sufficient to pay the principal and interest on the consolidating Districts' outstanding bonds.

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established by GAAP used by the District are discussed below.

A. Reporting Entity

The reporting entity consists of (a) the primary government; i.e., the District, and (b) organizations for which the District is financially accountable. The District is considered financially accountable for legally separate organizations if it is able to appoint a voting majority of an organization's governing body and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the District. Consideration is also given to other organizations, which are fiscally dependent; i.e., unable to adopt a budget, levy taxes, or issue debt without approval by the District. Organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete are also included in the reporting entity. Based upon these criteria, the District is not a component unit of any other government. The District has three blended component units and while they are legally separate entities they are in substance part of the District's operations:

Eagle River Water and Sanitation District Water Subdistrict - The Eagle River Water and Sanitation District Water Subdistrict (the "Water Subdistrict") was incorporated in 2002 and formed for the purpose of creating a separate taxing district pursuant to the Special District Act. The boundaries of the Subdistrict are generally identical to the boundaries of the Town, but include some properties which are not within the Town. The Subdistrict issued bonds in 2002, 2004, 2009, 2011, 2012, 2016 and 2019 for the construction of various facilities. The financial data of the Subdistrict is reported as part of the primary government because it is fiscally dependent upon the District and provides financing solely to the District. Although the Subdistrict is a separate legal entity, for financial reporting purposes, it is part of the District and is included in the Water Fund.

Wolcott Water and Sewer Subdistrict – During 2013, the District incorporated the Wolcott Water and Sewer Subdistrict (the "Wolcott Subdistrict") for the purpose of creating a separate taxing district pursuant to the Special District Act near the town of Wolcott, Colorado. Although the Subdistrict is a separate legal entity, for financial reporting purposes, it is part of the District and is included in the Sanitation Fund.

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

I. Summary of Significant Accounting Policies (continued)

A. Reporting Entity (continued)

Bighorn Terrace Sewer Subdistrict – During 2018, the District incorporated the Bighorn Terrace Sewer Subdistrict (the “Bighorn Terrace Subdistrict”) for the purpose of creating a separate taxing district pursuant to the Special District Act. Although the Subdistrict is a separate legal entity, for financial reporting purposes, it is part of the District and is included in the Sanitation Fund.

B. Fund Accounting

The District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions and activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The District uses a proprietary fund-type, an enterprise fund, to account for its activities, providing water and wastewater treatment services to taxpayers within the District's boundaries. Enterprise funds are used to account for operations (a) which are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements. Financial statement presentation refers to classification of revenues by source and expenses by function.

1. Long-term Economic Focus and Accrual Basis

Proprietary funds use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

2. Financial Statement Presentation

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts and Accounting Policies

1. Cash, Cash Equivalents and Investments

For purposes of the Statements of Cash Flows, the District considers cash on hand, demand deposits, U.S. government obligations and other highly liquid with maturities of three months or less when purchased to be cash equivalents.

Investments are stated at fair value. The change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

The District's investment policy is detailed at note III.A.

3. Receivables

Receivables are reported net of an allowance for uncollectible accounts. An allowance for doubtful accounts in the amount of \$80,256 and \$82,229 had been established at December 31, 2020 and 2019, respectively, to estimate uncollectible accounts.

4. Property Taxes

Property taxes are assessed in one year as a lien on the property, but not collected by governmental units until the subsequent year. In accordance with GAAP, the assessed but uncollected property taxes have been recorded as a receivable and as unavailable property tax revenue.

5. Inventory

Inventory is determined at the lower of cost (determined on the first-in, first-out basis) or market.

6. Capital Assets

Capital assets, which include land and easements, water rights, construction in progress, treatment plants, distribution systems, computers, equipment, vehicles, and employee housing, are reported in the financial statements. The District defines capital assets as assets with an initial cost of \$5,000 or more. Such assets are recorded at historical cost. Donated capital assets are recorded at estimated fair value at the date of donation. The cost of water rights includes acquisition cost, legal and engineering costs related to the development and augmentation of those rights. Since the rights have a perpetual life, they are not depreciated. All other costs, including costs incurred for the protection of those rights, are expensed. See the Schedule of Water and Storage Rights in the Statistical Section (pages F10-F13) for additional information.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Capital outlay for projects is capitalized as projects are constructed. Interest incurred during the construction phase is capitalized as part of the value of the assets constructed, net of investment earnings on loan proceeds during the same period. During 2020 and 2019, the District capitalized interest of \$0 and \$0 as part of capital assets, respectively.

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts and Accounting Policies (continued)

6. Capital Assets (continued)

Treatment plants, distribution systems, computers, equipment, vehicles, and employee housing are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Treatment plants	5 - 40
Distribution systems	5 - 40
Computers, equipment, and vehicles	2 - 10
Employee housing	40

7. Net Position

Net position represents the difference between assets, liabilities, and deferred inflows (outflows) of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets and increased by any unspent proceeds from related borrowings. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position is reported as unrestricted.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

8. Compensated Absences

Earned but unused vacation and sick leave benefits are accrued when incurred in the financial statements.

9. Long-term Obligations

Long-term debt and other long-term obligations are reported as liabilities in Statement of Net Position. Bond premiums and discounts are deferred and amortized over the respective life of the respective debt using a combination of the effective-interest and straight-line methods. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the period incurred.

The deferred cost on bond refunding is being amortized over the lesser of the life of the new bond or the remaining life of the refunded bonds using the straight-line method which approximates the effective interest method. The amortization amount is a component of interest expense and the unamortized deferred cost is reflected as a deferred outflow of resources.

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts and Accounting Policies (continued)

10. Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The District only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

11. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the District's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenditures or expenses during the reporting period. Actual results could differ from those estimates.

12. Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

13. Comparative Data

The financial statements include certain prior year comparative information in total, but not by segment. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended December 31, 2019, from which comparative totals were derived.

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

II. Stewardship, Compliance, and Accountability

A. Budgetary Information

In the fall of each year, the District's Board of Directors formally adopts a budget with appropriations for the ensuing year pursuant to the Colorado Local Budget Law. The budget is adopted on a non-GAAP basis and is reconciled to GAAP in Section E of this report. Expenditures may not legally exceed appropriations at the fund level and all appropriations lapse at year-end.

As required by Colorado statutes, the District followed the required timetable noted below in preparing, approving, and enacting its budget for 2020.

1. For the 2020 budget year, prior to August 25, 2019, the County Assessor sent to the District an assessed valuation of all taxable property within the District's boundaries. The County Assessor may change the assessed valuation on or before December 10 only once by a single notification to the District.
2. The District submitted, on or before October 15, 2019, a recommended budget that detailed the necessary property taxes needed along with other available revenues to meet the District's operating requirements.
3. Prior to December 15, 2019, after a required publication of "Notice of Proposed Budget" and a public hearing, the District certified to the County Commissioners a levy rate that derived the necessary property taxes as computed in the proposed budget, and the District adopted the proposed budget and an appropriating resolution that legally appropriated expenditures for the upcoming year.
4. After adoption of the budget resolution, the District may make the following changes: a) approve supplemental appropriations to the extent of revenues in excess of estimated revenues in the budget; b) approve emergency appropriations; and c) reduce appropriations for which originally estimated revenues are insufficient.

Taxes levied in one year are collected in the succeeding year. Thus, taxes certified in 2019 were collected in 2020 and taxes certified in 2020 will be collected in 2021. Taxes are due on January 1 in the year of collection; however, they may be paid in either one installment (no later than April 30) or two equal installments (not later than February 28 and June 15) without interest or penalty. Taxes that are not paid within the prescribed time bear interest at the rate of one percent (1%) per month until paid. Unpaid amounts and the accrued interest thereon become delinquent on June 16.

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

II. Stewardship, Compliance, and Accountability (continued)

B. TABOR Amendment

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20; commonly known as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax and debt limitations that apply to the State of Colorado and local governments.

TABOR also requires local governments to establish an emergency reserve to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. The reserve is calculated at 3% of fiscal year spending. Fiscal year spending excludes bonded debt service and enterprise spending.

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from state and local governments, are excluded from the provisions of TABOR. The District's management believes its operations qualify for this exclusion.

The District believes it is in compliance with the financial provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of its provisions, including the interpretation of how to calculate fiscal year spending limits and qualification as an enterprise, will require judicial interpretation.

III. Detailed Notes on All Funds

A. Deposits and Investments

The District's deposits are entirely covered by the Federal Deposit Insurance Corporation ("FDIC") or by collateral held under Colorado's Public Deposit Protection Act ("PDPA"). The FDIC insures depositors up to \$250,000 for all accounts. Deposit balances over \$250,000 are collateralized as required by PDPA. The carrying amounts of the District's petty cash, demand deposits and investments were \$66,211,130 and \$38,274,292 as of December 31, 2020 and 2019, respectively.

Fair Value of Investments

The District measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- *Level 1*: Quoted prices for identical investments in active markets;
- *Level 2*: Observable inputs other than quoted market prices; and,
- *Level 3*: Unobservable inputs.

At December 31, 2020, the District had the following recurring fair value measurements:

Investments Measured at Fair Value	Total	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
United States Treasury notes	6,888,938	-	6,888,938	-
Federal agency securities	3,869,735	-	3,869,735	-
United States Corporate	418,976	-	418,976	-

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

III. Detailed Notes on All Funds (continued)

A. Deposits and Investments (continued)

<u>Investments Measured at Net Asset Value</u>	<u>Total</u>
Money Market	50,127,952
Colotrust	2,658,363

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities.

Debt and equity securities classified in Level 2 are valued using the following approaches:

- U.S. Treasuries, U.S. Agencies, and Commercial Paper: quoted prices for identical securities in markets that are not active;
- Corporate and Municipal Bonds: quoted prices for similar securities in active markets;

The investment pool represents investments in the Colorado Government Liquid Asset Trust ("COLOTRUST") which is a 2a7-like pool. The fair value of the pools is determined by the pool's share price. The District has no regulatory oversight for the pool.

Interest Rate Risk. As a means of limiting its exposure to interest rate risk, the District coordinates its investment maturities to closely match cash flow needs and restricts the maximum investment term to less than five years from the purchase date. The investment policy also limits types of investments to specific maturity dates. Finally, the policy requires the District, at all times, to maintain 10% of its total investment portfolio in instruments maturing in 120 days or less.

Credit Risk. Colorado statutes and the District investment policy specify instruments in which local governments may invest, including:

- Obligations of the U.S. and certain U.S. governmental agency securities
- Certain international agency securities
- General obligation and revenue bonds for U.S. local governmental entities
- Bankers acceptances of certain banks
- Commercial paper
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

The District's investment policy has further restricted the investment of District funds to U.S. Treasury obligations, Federal agency securities, commercial paper, U. S. Corporate securities, eligible banker's acceptances, written repurchase agreements collateralized by certain authorized securities, local government investment pools, time certificates of deposit, and certain money market funds.

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

III. Detailed Notes on All Funds (continued)

A. Deposits and Investments (continued)

The District's investment policy requires all investments to be highly rated by nationally recognized statistical rating agencies as follows:

	Required Ratings
Federal agency securities	AAA
Commercial paper	A-1
United States Treasury notes	AAA
Eligible bankers acceptances	A-1
Local government investment pools	AAAm
Money market mutual funds	AAAm

In addition, the District's investment policy requires that approved counterparties to repurchase agreements have at least a short-term debt rating of A-1 and a long-term debt rating of A.

At December 31, 2020, unrealized gains were \$100,816, which reflects changes in the fair market value of investments. At December 31, 2020, the District had the following cash and investments with the following maturities:

	Standard & Poors Rating	Carrying Amounts	Maturities Less than one year	One to five years
<i>Petty cash</i>	Not rated	1,200	1,200	-
<i>Deposits:</i>				
Checking	Not rated	2,245,966	2,245,966	-
Money market	AAA	50,127,952	50,127,952	-
<i>Investment pools</i>	AAAm	2,658,363	2,658,363	-
<i>Investments:</i>				
United States Corporate	AA+/AA-/AAA	418,976	265,591	153,385
United States Treasury notes	AA+	6,888,938	3,146,358	3,742,580
Federal agency securities	AA+	3,869,735	2,185,335	1,684,400
Total		66,211,130	60,630,765	5,580,365

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

III. Detailed Notes on All Funds (continued)

A. Deposits and Investments (continued)

Concentration of Credit Risk. The District's investment policy requires its portfolio to be adequately diversified to avoid incurring unreasonable risks inherent in overinvesting in specific instruments, individual financial institutions or maturities. The District may invest to the following maximum limits:

	Maximum Percentage
U.S. Treasury obligations	100%
Federal agency securities	100%
Repurchase agreements	100%
Certificates of deposit	50%
Local government investment pools	50%
Combined total in bankers acceptances and commercial paper	30%

Investments in any one issuer (other than U.S. Treasury obligations, mutual funds, and external investment pools) that represented 5% or more of the total District investments at December 31, 2020 were as follows:

Issuer	Reported Amount	Percentage of Investment Portfolio
United States Government	6,671,865	10%
Wells Fargo Advantage Money Market	50,127,952	78%

B. Restricted Cash, Cash Equivalents and Investments

At December 31, 2020, cash has been restricted for the following purposes:

	Water	Sanitation	Total
Restricted for capital projects	2,435,918	39,339,012	41,774,930
Debt service reserves	1,236,096	5,319,812	6,555,908
Rate stabilization funds	600,000	600,000	1,200,000
Total	4,272,014	45,258,824	49,530,838

C. Summary of Cash and Investments

The District's cash and cash equivalents are disclosed in the following financial statement captions:

	<u>Water</u>	<u>Sanitation</u>	<u>Total</u>
Cash and cash equivalents - Unrestricted	1,365,632	12,498,721	13,864,353
Cash and cash equivalents - Restricted	3,550,820	37,618,308	41,169,128
Investments - Unrestricted	301,968	2,513,971	2,815,939
Investments - Restricted	721,194	7,640,516	8,361,710
Total	<u><u>5,939,614</u></u>	<u><u>60,271,516</u></u>	<u><u>66,211,130</u></u>

D. Notes Receivable

The following is an analysis of changes in notes receivable for the year ended December 31, 2020:

	<u>1/1/20 Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>12/31/20 Ending Balance</u>
Red Cliff	47,745	-	(47,745)	-
Employees	366,495	-	(139,760)	226,735
Sewer tap purchases	17,653	-	(6,620)	11,033
	431,893	-	(194,125)	237,768
Less: Current portion	(29,166)	-	24,753	(4,413)
Long-term portion	<u><u>402,727</u></u>	<u><u>-</u></u>	<u><u>(169,372)</u></u>	<u><u>233,355</u></u>

The following notes receivable were outstanding as of December 31, 2020:

1. Red Cliff

During 2012, the District received a promissory note for \$225,000 from the Town of Red Cliff for operation and maintenance services provided over a number of years. The note bears interest at 3.0% annually and is amortized over a ten year period.

2. Employees

The District provides down payment assistance to employees as part of its Employee Home Ownership Program. These non-interest bearing notes are secured by the related properties and will be collected over a period of fifteen years.

3. Sewer tap purchases

The District provides Sewer Tap deferral payment plans. These loans bear interest at 3.5% annually and are collected over a period of ten years.

Eagle River Water and Sanitation District
Notes to the Financial Statements
December 31, 2020
(Continued)

III. Detailed Notes on All Funds (continued)

E. Patronage Dividend Receivable

The District has a dividend receivable from Holy Cross Electric Association ("Holy Cross") which represents allocated refundable operating profits. These amounts are held by Holy Cross as working capital until the financial condition of Holy Cross permits a refund. Refunds are normally received annually approximately ten years in arrears. During the year ended December 31, 2020, the District received a refund of \$43,837 from Holy Cross. The balance due to the District at December 31, 2020 and 2019 was \$530,886 and \$546,702, respectively.

F. Investment in Eagle Park Reservoir Company

The Eagle Park Reservoir Company (the "Reservoir Company"), a Colorado nonprofit corporation was formed May 8, 1998 to acquire water diversion, storage facilities and water rights, and operate its water storage facilities located in Eagle County, Colorado, and to direct releases of water from the reservoir on behalf of its stockholders. An investment in the Reservoir Company allows the owner to augment its existing water rights.

In 1998, the District acquired 3,300 Class A Shares (approximately 16.4%) and 125 Class B shares of the stock in the Reservoir Company for \$1,909,732 and the contribution/pledge of certain water rights. The \$1,909,732 was financed through an assessment obligation payable to the Reservoir Company, which is explained in Note III.H.1, and is recorded as an investment in Eagle Park Reservoir Company, along with \$130,000 of legal costs related to the issuance of the assessment payable. Since 1998, the District has acquired additional shares of the Reservoir Company through various transactions. As of December 31, 2019, the District held 4,345 Class A Shares, 125 Class B Series 1 and 125 Class B Series 2 shares of the stock in the Reservoir Company at a cost of \$3,466,756.

During 2011 through 2017, the District's investment in the Reservoir Company was unchanged.

In March 2018, the District transferred 16.8789 Class A, Series 2 shares to Upper Eagle Regional Water Authority, which had a historical cost of \$13,314.

As of December 31, 2020, the District held 4,328.121 Class A Shares (approximately 16.7%), 125 Class B Series 1 and 125 Class B Series 2 shares of the stock in the Reservoir Company at a cost of \$3,453,442. See the Schedule of Water and Storage Rights in the Statistical Section (pages F10-F13) for additional information.

G. Capital Assets

Capital asset activity related to water services for 2020 was as follows:

	1/1/20 Beginning Balance	Additions	Retirements and Transfers	12/31/20 Ending Balance
Water				
Capital assets, not being depreciated:				
Water rights	1,496,416	-	-	1,496,416
Construction in progress	3,557,121	889,166	(445,683)	4,000,604
Total capital assets, not being depreciated	<u>5,053,537</u>	<u>889,166</u>	<u>(445,683)</u>	<u>5,497,020</u>
Capital assets, being depreciated:				
Treatment plants	4,902,660	-	-	4,902,660
Distribution systems	51,163,017	70,348	-	51,233,365
Computers, equipment and vehicles	3,182,430	225,399	(8,042)	3,399,787
Total capital assets being depreciated	<u>59,248,107</u>	<u>295,747</u>	<u>(8,042)</u>	<u>59,535,812</u>
Less accumulated depreciation for:				
Treatment plants	(2,521,745)	(182,617)	-	(2,704,362)
Distribution systems	(21,420,767)	(1,502,255)	-	(22,923,022)
Computers, equipment and vehicles	(2,102,246)	(294,840)	7,238	(2,389,848)
Total accumulated depreciation	<u>(26,044,758)</u>	<u>(1,979,712)</u>	<u>7,238</u>	<u>(28,017,232)</u>

H. Long-Term Debt – Water

The District has the following long-term debt outstanding related to its water operations:

1. 1998 Assessment Obligation Note

As previously explained in Note III.F, the District financed its 1998 investment in the Reservoir Company through the execution of an assessment obligation note in the amount of \$1,909,842. This note bears interest at 5.45% annually. Debt service payments of \$130,683 are due annually on September 16, through 2027.

The obligation is secured by the District's ownership of common stock of the Reservoir Company and certain water rights owned by participating members and leased to the District. The agreement contains release provisions for the collateral based on the timely payment of scheduled obligations. The assessment payable is subject to annual appropriation.

The District is maintaining a reserve equal to the next fiscal year's principal and interest payments for this obligation.

2. General Obligation Water Refunding Bonds, Series 2011

The District, through the Water Subdistrict, issued \$2,930,000 of general obligation water refunding bonds in December 2011, the proceeds of which were used to retire the 2002 CWRPDA loan and pay the costs of issuance. The interest rates on the bonds range from 3.00% to 4.00%. Interest is payable on June 1 and December 1, through 2022. The principal is payable on December 1 and matures in various increments through 2022.

Principal on the serial bonds is due beginning in 2012 through 2022 in amounts ranging from \$225,000 to \$315,000. These bonds are not subject to optional redemption prior to their respective maturity dates.

The bonds are not secured by the Water Subdistrict's assets and are not obligations of the District. The bonds are direct obligations and pledge the full faith and credit of the Water Subdistrict and are ultimately secured by the Water Subdistrict's general ad valorem tax collections.

The District is maintaining a reserve equal to interest accrued through December 31, 2020 plus one twelfth (1/12) of the first principal payment due in the subsequent year for this debt.

III. Detailed Notes on All Funds (continued)

H. Long-Term Debt – Water (continued)

3. General Obligation Water Bonds, Series 2012A

The District, through the Water Subdistrict, issued \$1,000,000 of general obligation water bonds in December 2012, the proceeds of which will be used to construct improvements to the District's water system and pay the costs of issuance. The interest rates on the bonds range from 2.30% to 2.50%. Interest is payable on June 1 and December 1, through 2029. The principal is payable on December 1 and matures in various increments through 2029.

Principal on the serial bonds is due beginning in 2023 through 2029 in amounts ranging from \$130,000 to \$155,000.

The bonds are not secured by the Water Subdistrict's assets and are not obligations of the District. The bonds are direct obligations and pledge the full faith and credit of the Water Subdistrict and are ultimately secured by the Water Subdistrict's general ad valorem tax collections.

Bonds maturing on or after December 1, 2023, are subject to redemption prior to maturity at the option of District at par plus accrued interest.

4. General Obligation Water Refunding Bonds, Series 2012B

The District, through the Water Subdistrict, issued \$6,605,000 of general obligation water refunding bonds in December 2012, the proceeds of which were used to partially refund the aforementioned 2004 General Obligation Water Bonds (Note III.H.2) and pay the costs of issuance. The interest rates on the bonds range from 2.00% to 3.00%. Interest is payable on June 1 and December 1, through 2029. The principal is payable on December 1 and matures in various increments through 2029.

Principal on the serial bonds is due beginning in 2013 through 2029 in amounts ranging from \$25,000 to \$555,000.

The District realized a present value savings on the refunding of \$801,658.

The bonds are not secured by the Water Subdistrict's assets and are not obligations of the District. The bonds are direct obligations and pledge the full faith and credit of the Water Subdistrict and are ultimately secured by the Water Subdistrict's general ad valorem tax collections.

Bonds maturing on or after December 1, 2023, are subject to redemption prior to maturity at the option of District at par plus accrued interest.

5. Water Enterprise Revenue Refunding Bonds, Series 2017

The District, through the Water Subdistrict, issued \$12,545,000 of water enterprise revenue bonds in May 2017, with annual interest rates ranging from 3.00% to 5.00%. Interest is payable June 1 and December, through 2039. The principal is payable on December 1 and matures in various increments through 2039. The proceeds were used to retire the 2009 water enterprise revenue bonds and pay the costs of issuance. The 2009 bonds are considered defeased and have been removed from long-term debt.

H. Long-Term Debt – Water (continued)

5. Water Enterprise Revenue Refunding Bonds, Series 2017 (continued)

Principal on the bonds is due beginning in 2017 through 2039 in amounts ranging from \$345,000 to \$780,000.

Only bonds maturing on and after December 1, 2028, are subject to redemption prior to maturity; these bonds are subject to redemption prior to maturity at the option of the District at par.

In conjunction with the issuance of these bonds, the District is required to maintain a Rate Stabilization Fund of \$600,000; the Rate Stabilization Fund was created to help offset or reduce any increase in fees, rates, and other charges to the users of the water system which was created by the Rate Maintenance Covenant.

These bonds are secured by a Reserve Fund equal to the least of 1) 10% of the principal amount of the bonds, 2) the maximum annual principal and interest on the bonds, or 3) 125% of average principal and interest on the bonds which will become due in any fiscal year. The District has purchased a bond reserve insurance policy to provide reserve funds if needed; therefore, no reserve has been reflected in these financial statements for this purpose.

The bond documents include a Rate Maintenance Covenant, which requires the District to establish service rates at a level sufficient to cover operating and maintenance expenses, as well as 115% of each fiscal year's debt service requirements of outstanding District bonds.

A bond insurance policy, which guarantees the scheduled payment of principal and interest on the bonds, was issued by Assured Guaranty Corporation concurrently with the issuance of these bonds.

The District realized a present value savings on the refunding of \$1,096,697.

6. Water Enterprise Revenue Bonds, Series 2019

The District, through the Water Subdistrict, issued \$3,825,000 of water revenue bonds in December 2019, the proceeds of which will be used to construct improvements to the District's water system and pay the costs of issuance. The interest rate on the bonds are 4.00%. Interest is payable on June 1 and December 1, through 2039. The principal is payable on December 1 and matures in various increments through 2039.

Principal on the serial bonds is due beginning in 2020 through 2039 in amounts ranging from \$125,000 to \$255,000.

Only bonds maturing on and after December 1, 2029, are subject to redemption prior to maturity; these bonds are subject to redemption prior to maturity at the option of the District at par.

H. Long-Term Debt – Water (continued)

6. Water Enterprise Revenue Bonds, Series 2019 (continued)

In conjunction with the issuance of these bonds, the District is required to maintain a Rate Stabilization Fund of \$600,000; the Rate Stabilization Fund was created to help offset or reduce any increase in fees, rates, and other charges to the users of the water system which was created by the Rate Maintenance Covenant.

These bonds are secured by a Reserve Fund equal to the least of 1) 10% of the principal amount of the bonds, 2) the maximum annual principal and interest on the bonds, or 3) 125% of average principal and interest on the bonds which will become due in any fiscal year. The District has purchased a bond reserve insurance policy to provide reserve funds if needed; therefore, no reserve has been reflected in these financial statements for this purpose.

The bond documents include a Rate Maintenance Covenant, which requires the District to establish service rates at a level sufficient to cover operating and maintenance expenses, as well as 115% of each fiscal year's debt service requirements of outstanding District bonds.

A bond insurance policy, which guarantees the scheduled payment of principal and interest on the bonds, was issued by Assured Guaranty Corporation concurrently with the issuance of these bonds.

I. Long-Term Debt – Sanitation

1. Enterprise Wastewater Revenue Bonds, Series 2012

The District issued \$28,060,000 of wastewater revenue bonds in December 2012, with annual interest rates ranging from 2.00% to 5.00%. Interest is payable June 1 and December 1, through 2042. The principal is payable on December 1 and matures in various increments through 2042. The proceeds of these bonds were used to finance improvements to the wastewater system.

As special, limited obligations of the District, principal and interest on the bonds are payable solely from Net Pledged Revenues, as defined in the bond documents. Such net revenue includes income from the operation and use of the wastewater treatment facilities and other legally available revenue after the payment of operation and maintenance expenses of the system. In connection with the issuance of these bonds, the District has adopted a resolution imposing a new Sewer Debt Service Rate which is collected monthly from each single family equivalent ("SFE") in the system.

The bond documents include a Rate Maintenance Covenant, which requires the District to establish service rates at a level sufficient to cover operating and maintenance expenses, as well as 110% of each fiscal year's debt service requirements of outstanding District bonds.

III. Detailed Notes on All Funds (continued)

I. Long-Term Debt – Sanitation (continued)

1. Enterprise Wastewater Revenue Bonds, Series 2012 (continued)

These bonds are secured by a common Reserve Fund equal to the minimum of: a) 10% of the principal amount of the bonds, b) the maximum annual debt service in any calendar year, or c) 125% of the average annual debt service of the bonds.

In conjunction with the issuance of the 2012 Bonds, the District is required to maintain a Rate Stabilization Fund of \$600,000; the Rate Stabilization Fund was created to help offset or reduce any increase in fees, rates, and other charges to the users of the water system which was created by the Rate Maintenance Covenant.

Bonds maturing on and before December 1, 2022, are not subject to optional prior redemption. Bonds maturing on or after December 1, 2023, are subject to redemption prior to maturity at the option of District at par plus accrued interest.

2. General Obligation Wastewater Bonds, Series 2016

The District, through the Wastewater Subdistrict, issued \$23,295,000 of general obligation wastewater bonds in March 2016, the proceeds of which will be used to construct improvements to the District's wastewater system and pay the costs of issuance. The interest rates on the bonds range from 2.00% to 5.00%. Interest is payable on June 1 and December 1, through 2045. The principal is payable on December 1 and matures in various increments through 2045.

Principal on the serial bonds is due beginning in 2016 through 2045 in amounts ranging from \$315,000 to \$1,305,000.

The bonds are not secured by the Wastewater Subdistrict's assets and are not obligations of the District. The bonds are direct obligations and pledge the full faith and credit of the Wastewater Subdistrict and are ultimately secured by the Wastewater Subdistrict's general ad valorem tax collections.

Bonds maturing on or after December 1, 2027, are subject to redemption prior to maturity at the option of District at par plus accrued interest.

3. Enterprise Wastewater Revenue Crossover Refunding Bonds, Series 2017

The District issued \$12,430,000 of enterprise wastewater revenue crossover refunding bonds in December 2017, with annual interest rates ranging from 3.00% to 5.00%. Interest is payable June 1 and December 1, through 2039. The principal is payable on December 1 and matures in various increments through 2039. The proceeds were used to retire the 2009B wastewater enterprise revenue bonds on the crossover date December 1, 2019. The 2009B bonds are considered defeased and have been removed from long-term debt.

3. Enterprise Wastewater Revenue Crossover Refunding Bonds, Series 2017 (continued)

The proceeds from the issuance are held in an escrow account until the crossover date. Principal on the bonds is due beginning in 2020 through 2039 in amounts ranging from \$440,000 to \$840,000.

Only bonds maturing on and after December 1, 2028, are subject to redemption prior to maturity; these bonds are subject to redemption prior to maturity at the option of the District.

In conjunction with the issuance of these bonds, the District is required to maintain a Rate Stabilization Fund of \$600,000; the Rate Stabilization Fund was created to help offset or reduce any increase in fees, rates, and other charges to the users of the water system which was created by the Rate Maintenance Covenant.

These bonds are secured by a Reserve Fund equal to the least of 1) 10% of the principal amount of the bonds, 2) the maximum annual principal and interest on the bonds, or 3) 125% of average principal and interest on the bonds which will become due in any fiscal year. The District has purchased a bond reserve insurance policy to provide reserve funds if needed; therefore, no reserve has been reflected in these financial statements for this purpose.

The bond documents include a Rate Maintenance Covenant, which requires the District to establish service rates at a level sufficient to cover operating and maintenance expenses, as well as 115% of each fiscal year's debt service requirements of outstanding District bonds.

A bond insurance policy, which guarantees the scheduled payment of principal and interest on the bonds, was issued by Assured Guaranty Corporation concurrently with the issuance of these bonds.

4. Enterprise Wastewater Revenue Bonds, Series 2020A

The District issued \$35,220,000 of wastewater revenue bonds in June 2020, with annual interest rates ranging from 3.00% to 4.00%. Interest is payable June 1 and December 1, through 2049. The principal is payable on December 1 and matures in various increments through 2049. The proceeds of these bonds were used to finance improvements to the wastewater system.

As special, limited obligations of the District, principal and interest on the bonds are payable solely from Net Pledged Revenues, as defined in the bond documents. Such net revenue includes income from the operation and use of the wastewater treatment facilities and other legally available revenue after the payment of operation and maintenance expenses of the system. IV. Other Information

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has joined together with other special districts in the State to form the Colorado Special Districts Property and Liability Pool ("the Pool"), a public entity risk pool currently operating as a common risk management and insurance program for member special districts. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property, public officials' liability and workers compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

B. Pension Plans

1. Defined Contribution Pension Plan - Section 401(a)

Full-time, year round employees of the District participate in a defined contribution pension plan which was established by the District and is maintained and administered by the Principal Financial Group. Additional plan oversight and advisory services are provided by Morton and Company. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees participate in the District's plan upon employment. Under this plan, 5% of the employees' compensation is withheld and remitted to the Plan Administrator. Following six months of the participant's employment, the District contributes a matching 5% of all eligible employees' compensation. In addition, the District contributes 6.2% of compensation for all eligible participants hired after March 31, 1986 or 7.65% of compensation for participants hired prior to March 31, 1986. This contribution begins upon employment.

The District's contributions, plus earnings, become vested at a rate of 20% for each year of participation in the plan. District contributions for employees who leave employment before five years of participation are used to reduce the District's future contribution requirement. There is no liability for benefits under the plan beyond the District's required contributions. Plan provisions and contribution requirements are established and may be amended by the District.

The District's 2020 covered payroll was \$9,157,140. Contributions actually made, which equaled the required contributions, were \$457,857 for plan members and \$441,594 for the District for the year ended December 31, 2020. Forfeitures totaled \$27,163 and for the year ended December 31, 2020.

As of December 31, 2020, there were no outstanding contribution liabilities.

IV. Other Information (continued)

B. Pension Plans (continued)

2. Deferred Compensation Plan

The District has a deferred compensation plan created in accordance with Internal Revenue Code Section 457 for full time, year round employees. This plan is administered by Principal Financial Group. Additional plan oversight and advisory services are provided by Morton and Company. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseen emergencies. During 2011, the District amended the plan to offer a Roth contribution option.

C. Employee Housing Program

The District operates a housing program that benefits its employees by providing affordable housing options as real estate prices in the Vail area are high. The objective of the program is to retain current employees and to attract new employees to the area. There are certain specified individuals who are not District employees who are also allowed to participate in the housing program depending on availability and whether they meet eligibility criteria established by the Board.

The District offers rental properties to employees as well as home buyers assistance options. The rental properties consist of condos, apartments and homes that are either built or purchased by the District. For employees using the housing program for rental properties, the District will set up a payroll deduction as a means to collect the rent. This is also done for employees using the home buyers' assistance option.

D. Intergovernmental Agreements

1. Interconnect

The District and Upper Eagle Regional Water Authority (the "Authority") entered into an intergovernmental agreement ("IGA") in 1994 to construct an interconnect between their two water systems to enable the transfer of water between the parties for the purposes of achieving operational flexibility. In accordance with the IGA, the deliveries between the two systems are to be measured daily (net distribution of water) with the net amount owed by either party to the other to be recorded by the owing party at a rate equal to 75 percent of the then current water rate charges by the owing party. The intent of the parties is to provide long-term service to each other through the availability of peak use season and emergency supplemental water supply. The agreement provides for a payment calculation year of May 1 to April 30. If at the end of the payment year there is a net distribution of water to one of the parties that party shall make payment to the other party. It should be noted that historically towards the end of each payment year (April 30) the system is run to create a zero balance outstanding, such that no payment is due to or from either party. For the payment years ended April 30, 2020 and 2019, the balance outstanding was \$0.

The value of water distributed by the District through the interconnect was \$19,706 and \$68,052 during the year ended December 31, 2020 and 2019, respectively. As the system is brought to a zero balance by the end of each payment year (April 30), the District has chosen to forgo immediate payment and carry this receivable forward. The District reserves the right to request payment from the Authority at any time in the future.

D. Intergovernmental Agreements (continued)

2. Contract for Water Services

Through an agreement, the District provides administration, operations, customer billing, system maintenance and capital program management services to the Authority. The District bills customers for the water service provided and collects and remits the monies to the Authority. The water service monies are not recognized as revenue of the District. In addition to the contract fees, the District bills the Authority for maintenance and supplies which are recognized as revenue. The District earned \$6,215,092 and \$5,185,805 of contract fees from the Authority during 2020 and 2019, respectively. The District has outstanding management fees due from the Authority as of December 31, 2020 and 2019 totaling \$2,654,878 and \$1,378,873, respectively, included in other receivables. There were other outstanding receivables, for operations services, due from the Authority as of December 31, 2020 and 2019 totaling \$2,654,878 and \$1,378,873, respectively, included in other accounts receivables. As of December 31, 2020 and 2019 there was \$1,631,277 and \$1,449,938 for water service billed, due to the Authority included in accounts payable, respectively.

The District earned \$19,348 and \$18,780 of contract fees from other governments which it has similar agreements (i.e. Town of Minturn and Eagle Park Reservoir Company) during 2020 and 2019, respectively.

E. Commitments and Contingencies - Federal and State Grants and Financial Sources

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

F. Construction Commitments

The District had the following significant contract commitments remaining at December 31, 2020:

Project	Vendor	Contract Commitment	Completed	Remaining
Avon WWTF Fire Flow	AE2S	122,557	18,835	103,722
Avon WWTF Nutrient Upgrade	Moltz Construction	49,627,823	8,459,220	41,168,603

(Unaudited)**

Biochemical Oxygen Demand ("BOD") is the rate in which organisms use oxygen in wastewater while stabilizing decomposable organic matter under aerobic conditions. In decomposition, organic matter serves as food for the bacteria and energy results from its oxidation. BOD measurements are used as a surrogate measure of the organic strength of wastes in water.

Eagle River Water and Sanitation District
Schedule of Water & Storage Rights
December 31, 2020
(Unaudited)

Most of the water and storage rights currently used by the District were provided by the previous water utilities at no cost to the District. In accordance with Governmental Accounting Standards Board (GASB), only owned water and storage rights are shown on the District's Statement of Net Position at historic cost, totaling \$1,496,416. This cost represents mostly legal expenditures to establish the District's ability to use these rights to provide water directly to the customers and a small acquisition of new rights. Also in accordance with GASB, the investment in Eagle Park Reservoir Company Stock, which provides a valuable source of raw water supply, is not reflected in capital assets, but is shown in Other Assets at the historic cost of \$3,453,442. Management of the District believes the actual value of these water and storage rights used by the District to be greater than historical cost as of December 31, 2020.

The appraisal value as of January 10, 2020, performed by Porzak Browning & Bushong LLP (Special Water Rights Counsel for the District) is recited here solely for informational purposes.

Water Right	Quantity (a.f.)	Price per a.f.	Historical Cost	Appraisal Value
Eagle Park Reservoir Water	432.81211	\$39,500	\$3,453,442	\$17,096,078

Water Rights Owned

Eagle Park Reservoir Water

The District owns or has a perpetual contractual right to the water rights in connection with Eagle Park Reservoir (432.81211 a.f.). Refer to footnote III.F. for additional terms. The value of Eagle Park Reservoir is based on the District's dedication replacement cost of \$39,500 per acre-foot for non-irrigation season in-basin storage. That replacement cost is established by the District's water dedication policy, which is the basis by which water service is approved for and provided to all new development in the District's service area.

Homestake Reservoir

The District owns or has a perpetual contractual right to the water rights in connection with Homestake Reservoir (250 a.f.). The value of Homestake Reservoir storage is based on the District's dedication replacement cost of \$39,500 per acre-foot for non-irrigation season in-basin storage. That replacement cost is established by the District's water dedication policy, which is the basis by which water service is approved for and provided to all new development in the District's service area.

Eagle River Water and Sanitation District
Schedule of Water & Storage Rights
December 31, 2020
(Unaudited)
(Continued)

Green Mountain Reservoir

The District owns water related contracts in connection with Green Mountain Reservoir (934 a.f.).

Contract 9-07-60-W0408: This contract was executed on April 6, 1989, for a total of 934 acre-feet per year, 264 acre-feet for municipal and domestic use, and 670 acre-feet for industrial use which includes snowmaking. The annual contract payment is \$10 per acre-foot for municipal and domestic use water (264 acre-feet). The annual contract payment for industrial use water (670 acre-feet) is \$55 per acre-foot for the first 385 acre-feet, and a \$15 per acre foot standby charge and a \$40 per acre foot delivery charge for the remaining 285 acre-feet. The \$40 delivery charge is paid only for actual water delivered, while the standby charge is paid regardless of actual delivery. This lease is for a term of 40 years (expires April 5, 2029), with an option to renew for an additional 40 years.

Green Mountain Reservoir contract water value is based on the fact that Green Mountain Reservoir is a finite pool, that there are no new contracts being let by the U.S. Bureau of Reclamation for this pool, but also reflecting its lower value compared with Wolford Mountain Reservoir contract water due to less reliability and transfer issues with the Bureau. The term of the Green Mountain Reservoir contract is also less than the term of the Wolford Mountain Reservoir contract.

Wolford Mountain Reservoir

The District owns water related contracts in connection with Wolford Mountain Reservoir (500 a.f.).

Contract CW08010: This contract was executed on February 9, 2009, for 500 acre-feet per year. The base price was \$260.25 per acre-foot for the first year, and annual contract payments are \$260.25 per acre-foot, but they can be increased each year up to the amount of increase in the Consumer Price Increase plus the New Growth Index. It is for an initial term of 75 years (expiring February 9, 2084), with a right of first refusal at the end of the initial term on the same terms at which the River District is offering similar supplies to other municipal water providers.

Wolford Mountain Reservoir contract water value is based on a ten (10) year cost at \$380.50 per acre-foot per year, or a total of \$3,805 per acre-foot. A ten year lease cost is an approximation of the purchase value of this water.

Black Lakes

The Black Lakes water rights consist of two structures, Black Lake and Black Lake No. 2, and three separate water rights decreed to those structures. Pursuant to the decrees in Case Nos. W-4003, 79CW296, 82CW328, 05CW257, and 10CW200, the District's interest in the Black Lake No.1 water right is 352 a.f. absolute, and its interest in the Black Lake No.2 water right is 73 a.f. absolute. These structures and water rights are subject to two agreements: the Memorandum of Agreement dated January 30, 1986, between the Vail Valley Consolidated Water District and the Colorado Department of Natural Resources; and the Memorandum of Agreement dated June 23, 2005, between the Eagle River Water & Sanitation District and the Colorado Department of Natural Resources (together, the "MOAs").

By virtue of the decrees described above and the MOAs, the District owns a total of 425 a.f. absolute in the Black Lakes. Pursuant to the 2005 MOA, the District is free to use 125 a.f. for all uses any time of year. The District must release the other 300 a.f. during the December through March period to augment stream flows during that period. However, to the extent that the District diverts water from the System Interconnect and/or Dowds Junction diversions during the December through March period instead of diverting water at its Gore Creek wellfield, then it can keep an equivalent amount of water in Black Lakes for its use any time of year. (For example, if the District

Eagle River Water and Sanitation District
Schedule of Water & Storage Rights
December 31, 2020
(Unaudited)
(Continued)

diverts 150 a.f. of water at the System Interconnect during December through March, then it may use 150 a.f. of the 300 a.f. of Black Lakes water for any decreed use any time of year, and it would release the other 150 a.f. to Gore Creek during the December through March period to augment stream flows.)

The value of Black Lakes storage is based on the District's dedication replacement cost of \$39,500 per acre-foot for non-irrigation season in-basin storage. The value to the District of Black Lakes is that these reservoirs fill each year and the water is stored very high in the Gore Creek drainage. Therefore, the water is available for direct use and/or augmentation (i.e., replace out of priority depletions resulting from the diversion of other water rights) without causing any "gap" in the creek between the point of depletions and location of the replacement water. In other words, this water can be delivered directly to the location of the points of diversion and/or depletion.

Conditional Storage

The District's conditional storage (584.45 a.f.) are decreed, but not yet completed, water rights. These water rights of the District exist in several locations throughout the District's service area and given a nominal value of \$100 per acre-foot due to the high cost of developing these storage rights.

In-Basin Consumptive Use

The District's in-basin consumptive use water rights (902 a.f.) includes senior irrigation water rights that were changed, and their historical consumptive use was quantified in Case Nos. W-2256, W-2264, 79CW124, and 82CW328. In-basin consumptive use credits are valued at the District's dedication replacement cost of \$9,500 per acre-foot of irrigation season water. This replacement cost is established by the District's water dedication policy, which is the basis by which water service is approved for and provided to all new development in the District's service area. These water rights are generally quite senior and are not subject to curtailment; hence, their higher value. Further, these water rights have been changed to be used for municipal uses, including augmentation, thus permitting the District to divert and use other water rights when they are out of priority. The value of these water rights to the District is derived from their seniority and that they have already been quantified and changed to municipal uses and augmentation, and included in the District's plan for augmentation. The only reason why these are not the most valuable of the District's water rights on a per-acre-foot basis is due to the fact that they can only be used during the irrigation season, not year-round, unless they are diverted and placed in storage.

Direct Flow Historical Users' Pool

The District's historical users' pool (HUP) beneficiary water rights (89 a.f.) are decreed for non-irrigation season use as HUP rights, and the fact that 4.35 cfs of the District's HUP rights are senior to the CWCB instream flow water right. As a result, 89 acre-feet of winter use is not subject to curtailment. This quality makes these rights as valuable as in-basin storage such as Eagle Park Reservoir water, so we assigned a value of \$39,500 to these rights, equivalent to the District's non-irrigation season dedication cost.

These are water rights that are protected by Green Mountain Reservoir pursuant to the decrees for Green Mountain Reservoir, Senate Document 80 (which established the federal basis for Green Mountain Reservoir), and the final Operating Policy for Green Mountain Reservoir, Colorado-Big Thompson Project, Colorado (48 P.R. 56657). Pursuant to these Green Mountain Reservoir documents, as specifically described in the final Operating Policy, West Slope domestic and irrigation water rights that were "perfected" (actually diverted and used) as of October 15, 1977 are allowed to continue to divert at times when they otherwise would be curtailed. At such times, Green Mountain Reservoir will release water to downstream senior water rights to allow such continued diversions by the HUP "beneficiaries."

**Eagle River Water and Sanitation District
Schedule of Water & Storage Rights
December 31, 2020
(Unaudited)
(Continued)**

This category of HUP water rights typically consists of what are deemed to be fairly junior water rights (priorities between approximately 1940 and 1977) that would be curtailed in most years due to a call administered to protect either the Shoshone Power Plant or the Grand Valley "Cameo" water rights. However, because the HUP water rights benefit from the releases from Green Mountain Reservoir, they are allowed to continue to divert water at times when either Shoshone or Cameo is placing a call for water. This has the effect of enhancing the period of time, and thus the amount of water, that these HUP water rights can divert. This enhances their value. The District owns a number of such water rights that were perfected as of October 15, 1977. In fact, the District's augmentation plan decree in Case No. 82CW328 expressly recognizes the HUP status of a number of its water rights and incorporates these water rights, as so protected by Green Mountain Reservoir, in its plan for augmentation.
