A regular meeting of the Board of Directors of the Upper Eagle Regional Water Authority (Authority) was held May 28, 2015, at 8:30 a.m., in the Walter Kirch Room of the Eagle River Water & Sanitation District (District), 846 Forest Road, Vail, Eagle County, Colorado, in accordance with the applicable statutes of the State of Colorado.

ATTENDANCE

The following Directors were present, thereby constituting a quorum:

- Tom Allender, EagleVail Metropolitan District
- Geoff Dreyer, Arrowhead Metropolitan District
- Todd Goulding, Town of Avon
- George Gregory, Berry Creek Metropolitan District
- Jim Power, Beaver Creek Metropolitan District

The following Director was absent and excused:

- Mick Woodworth, Edwards Metropolitan District

The following Alternate Director was present and acting:

- Kara Heide, Edwards Metropolitan District

Also in attendance were:

- ERWSD Staff
- Tug Birk
- Linn Brooks
- Jason Cowles
- Carol Dickman
- Angelo Fernandez
- Todd Fessenden
- Catherine Hayes
- Leslie Isom
- Diane Johnson
- Melissa Mills McLoota
- Ed Trainer
- James Wilkins
- Consultants
- Eric Jorgenson, Collins Cockrel & Cole
- Glenn Porzak, Porzak Browning & Bushong LLP
- Public
- Pam Elsner, Beaver Creek Metropolitan District
- Sarah Smith Hymes, Town of Avon

DISCLOSURES OF POTENTIAL CONFLICTS OF INTEREST

The Board noted it had received more than 72 hours prior to the meeting certain disclosures of Potential Conflicts of Interest Statements for the following Directors indicating the following conflicts:

- Director Allender disclosed that he is the Director of Resort Planning for Vail Associates, Inc., which has significant land ownership and business interests within the Authority. Also, he is appointed by Vail Associates, Inc. to serve as a Director of both the Eagle Park Reservoir Company and the Clinton Ditch and Reservoir Company; he also serves on the Eagle River Water & Sanitation District Board of Directors, which manages the Authority. Director Goulding disclosed that he serves on the Boards of the Eagle County Health Service District and Vail Mountain Rescue, which have occasional dealings with the Authority. He also disclosed he is the owner of Goulding Development Advisors, LLC, which may have occasional dealings with the Authority and its member districts. Director Woodworth disclosed that he is employed by the Eagle River Fire Protection District, which operates within the Authority’s service area; he also serves on the Edwards Metropolitan District Board.

CALL TO ORDER

Chairman Gregory called the meeting to order at 8:30 a.m.

ACTION ITEMS

Consideration of Minutes – The minutes of the Regular Meeting of April 23, 2015, were considered. Upon motion duly made and seconded, it was unanimously

RESOLVED that the minutes of the April 23, 2015, Regular Meeting be accepted and hereby are approved as presented.

Easement Vacation: Buck Creek Lot 1A – Mr. Birk discussed a proposed vacation of easement and presented a board action request form, map of the parcel, and a resolution for easement vacation, copies of which are attached hereto as Exhibits A, B, and C, respectively, and
Board of Directors Meeting
May 28, 2015

incorporated herein by this reference. After discussion and upon motion duly made and
seconded, it was unanimously

RESOLVED that the vacation of the easement for Buck Creek Lot 1A be and hereby is
approved as presented.

Oath of Office – Chairman Gregory administered the Oath of Office to Alternate Director Heide, a copy
of which is attached hereto as Exhibit D and incorporated herein by this reference.

Rules and Regulations Revisions – Mr. Birk presented a board action request form regarding minor
revisions to the Rules and Regulations, a copy of which is attached hereto as Exhibit E and
incorporated herein by this reference. He explained the revisions were being proposed to maintain
consistency with an updated application for the construction review process. After discussion and upon
motion duly made and seconded, it was unanimously

RESOLVED that the Rules and Regulations revisions be and hereby are approved as
presented.

Quarterly Financial Report – Mr. Wilkins presented the quarterly financial report, a copy of which is
attached hereto as Exhibit F and incorporated herein by this reference. He noted many budget
transfers occurred from 2014 to 2015 due to timing shifts. He called attention to a significant variance in
personnel costs due to the transition to ADP, the District’s new payroll processing company. Costs for
the first payroll were debited in 2014 rather than 2015. Mr. Wilkins also called attention to higher-than-
budgeted first quarter water sales, though the precipitation in May could translate into lower second
quarter sales. The Board acknowledged receipt of the report.

REPORT BY WATER COUNSEL

Federal Legislation Update – Mr. Porzak discussed the Water Rights Protection Act and a list of
the Act’s cosponsors, a copy of which is attached hereto as Exhibit G and incorporated herein by
this reference. He noted many cosponsors are from states without ski areas on Forest Service
land, showing the widespread support for the Act. He also said the Colorado congressional
delegation supports the legislation.

Forest Service Directive Update – Mr. Porzak discussed three Forest Service directives. The
groundwater directive received much negative feedback and was withdrawn. The two other
directives are in various states of revision. Mr. Porzak called attention to a recent revision of the
water rights permit clause, which would give the Forest Service ownership of water rights used on
Forest Service land – whether or not the water originated on that land. The feedback on the
revision from the National Ski Areas Association was very negative, and the Forest Service is
again rewriting the directive.

2015 State Legislation Summary – Mr. Porzak discussed the summary, a copy of which is
attached hereto as Exhibit H and incorporated herein by this reference. He said most of the
water bills introduced during the legislative session were killed due to tension between the House and Senate, which were under control of different parties.

**Senate Bill 15-183** – Mr. Porzak discussed the bill, a copy of which is attached hereto as Exhibit I and incorporated herein by this reference. The bill would ensure that the Water Courts could not requantify water rights previously quantified except in unique cases with new circumstances. Mr. Porzak said this was important legislation, especially for water rights that will be used for future growth or may be needed only during drought years, for example.

**Seniors First Supreme Court Appeal** – Mr. Porzak discussed the appeal, a copy of which is attached hereto as Exhibit J and incorporated herein by this reference. He summarized the case, in which the State Engineer mandated the Authority divert a senior water right prior to diverting a junior one. Mr. Porzak said the rights have many differences and based on past precedent, the Authority should be able to divert whichever right it chooses. He also noted the importance of knowledge of the service area and customer base with regard to water rights administration.

**Lake Creek Wells Augmentation Plan** – Mr. Porzak discussed the augmentation plan, a copy of which is attached hereto as Exhibit K and incorporated herein by this reference. He summarized the Authority’s need to develop the Lake Creek well field and said the plan was filed. The wells could be augmented with historic consumptive use credits and will be important for future development, especially in the Edwards area.

**Clean Water Act Update** – Mr. Porzak noted the Environmental Protection Agency (EPA) and Army Corps of Engineers released the revised Waters of the United States (WOTUS) rule, which is part of the Clean Water Act. Bob Weaver will review the rule on behalf of the Authority and District and report back to the Boards on the potential effects. Mr. Porzak said a recent hearing on the Water Rights Protection Act also included discussion of the WOTUS rule and many congressional delegates did not view this and other EPA regulations favorably.

**California Drought Discussion** – In response to a question, Mr. Porzak said Governor Hickenlooper could not issue an executive order similar to that of California’s Governor Brown, in which Brown mandated reduced water usage throughout the state. Mr. Porzak also said California has been exceeding its Compact entitlement for years.

**REPORT BY GENERAL COUNSEL**

**Authority Agreement Update** – Mr. Jorgenson, attending on behalf of Mr. Collins, noted the Authority Agreement was executed by all Authority member districts. A copy of the fully executed Agreement is attached hereto as Exhibit L and incorporated herein by this reference.

**Water System Impact Fee Update** – Mr. Jorgenson reported that the Water System Impact Fee (formerly called a plant investment fee), was approved by all Authority member districts.
REPORT BY GENERAL MANAGER

Tuesday Packet Email – Ms. Brooks requested feedback on staff's current practice of emailing relevant, time-sensitive consultant items to the Board on the Tuesday before the Board meeting. The Board agreed that this was okay, but Directors may or may not be able to consider these additional items prior to the meeting due to the short turnaround time. The Board also confirmed that packet delivery one week prior to the meeting was preferred.

Mountain Star Tank Update – Ms. Brooks discussed the $105,000 donated from the sewer cost recovery fund of the developer, Jen Wright, to be used towards tank costs. Ms. Brooks noted Mr. Collins recommended holding the funds to include in tank financing. The Board approved the expenditure of Authority funds for tank design, so long as these and any related expenses are accounted for in the financing package. In response to a question, Mr. Fessenden noted the tank design would help determine a tank cost estimate. This figure would be helpful for the town of Avon and Mountain Star in their discussions to determine tank financing.

Eagle River MOU Projects – Ms. Brooks discussed a recent meeting with some ERMOU principals for a presentation from the technical group studying the various project options. Viable projects were identified, including an Eagle Park Reservoir enlargement, Bolts Lake development; and potential Whitney Creek, Blodgett, and Wolcott reservoirs. A summary and scope of work for each possibility will be drafted to move forward. Mr. Porzak said the project review was a creative process that included a wide range of alternatives.

Water Rights Hydrology Model – Ms. Brooks said the model is near completion and is producing data. She noted the importance of including historical data to capture unique events like droughts. Staff is researching whether additional effort to include a longer period of historical data will be worth the added cost.

Wilderness Policy Update – Ms. Brooks noted Bob Weaver was drafting a memo summarizing his investigation on wilderness issues in preparation for a Board discussion of a wilderness policy. Ms. Brooks shared a draft statement that could be used while the final policy is developed. Director Allender requested changes to explicitly state that the Board could not support any wilderness designation that would preclude the Authority’s ability to access current and even future facilities for mitigation or restoration efforts.

REPORT BY DIRECTOR OF OPERATIONS

Mr. Fessenden presented the Operations Report, a copy of which is attached hereto as Exhibit M and incorporated herein by this reference.

Traer Creek Tank Update – Mr. Fessenden said water department staff noticed on May 25 that the tank was leaking at approximately 425 gallons/minute. A June 1 meeting of involved staff and contractors is scheduled to discuss issues related to this leak. The tank will remain drained and offline for the foreseeable future.
Mountain Star BPS Project Update – Mr. Fessenden updated the Board on the planned booster pump station (BPS) projects, design for which is moving forward. Cost estimates have increased for the needed BPS upgrades due to rising construction costs and the need for an additional BPS to be upgraded, due to a revision to the demand calculation.

Camp Hale Stakeholders Group Update – Mr. Fessenden said the Authority and District joint letter of support regarding the Camp Hale Restoration was submitted to the U.S. Forest Service. Main points included the need for continued stream and water rights access and the inclusion of a wetlands bank there. He noted Aurora and Colorado Springs also submitted letters addressing those same points, on which the USFS scoping letter was silent.

Urban Runoff Group/Stormwater Update – Mr. Fessenden said the town of Vail is taking leadership regarding urban runoff and stormwater issues, including efforts to upgrade the East Vail interchange to reduce the effects of I-70 runoff in the area. A contractor was also hired to remap Vail’s stormwater system and trace any outfalls upstream to determine where pipes branch off and whether any connections between the storm and sanitary systems exist.

REPORT BY DIRECTOR OF ORGANIZATIONAL DEVELOPMENT

Mr. Fernandez presented his report, a copy of which is attached hereto as Exhibit N and incorporated herein by this reference.

Online Bill Pay – Mr. Fernandez said the District's online bill payment system was being tested by employees who reside in the District’s service area; it will be ready for Board member testing prior to a full release to District customers.

New Website – Mr. Fernandez discussed the scheduled launch of the District’s new website on June 1. The site will feature easy and intuitive navigation, comply with the District's new branding, and provide analytics regarding visitors and usage. Mr. Fernandez gave a demonstration of the site as well.

REPORT BY COMMUNICATIONS AND PUBLIC AFFAIRS MANAGER

Ms. Johnson presented her report, a copy of which is attached hereto as Exhibit O and incorporated herein by this reference.

State of the River Public Meeting – Ms. Johnson said about 65 people attended the May 21 event to hear about priorities for the Eagle and Colorado river basins, within the context of Colorado’s Water Plan. The program was recorded and will be available to view on Channel 5 and its website.

Colorado Water Plan update – Ms. Johnson updated the Board on the plan, public comments for which were reviewed at the May 20 – 21 Colorado Water Conservation Board meeting. She said over 24,000 comments were received, although a majority were form letters circulated by environmental and other interest groups. In response to a question, Ms. Johnson said the basis of many comments was feedback from the agriculture, river health, and recreation communities, as well as concerns.
about maintaining Colorado’s system of prior appropriation. The final plan is due to the governor in
December.

Town of Vail Water Quality Project – Ms. Johnson mentioned media coverage of the town’s project
to map and database all storm sewer infrastructure and drainage basin information, which is part of
its strategic action plan to improve water quality in Gore Creek. Upstream improvements may benefit
downstream users such as the Authority.

Authority U: Online payment and e-billing – Authority U was tabled to the June meeting due to a
CenturyLink outage that prevented staff from showing the online bill pay site.

EXECUTIVE SESSION

Mr. Porzak requested the Board enter Executive Session to receive legal advice regarding the Shoshone
Acquisition and Forest Service permitting of historic ditches, pursuant to §24-6-402(4)(a)(b) and (e) C.R.S. He
asked that no electronic record be made, as the discussion would be entirely privileged attorney-client
communications. Upon motion duly made and seconded, it was unanimously

RESOLVED to enter executive session at 10:06 a.m. to discuss attorney-client privileged
issues concerning the Shoshone Acquisition and Forest Service ditch permitting, pursuant to
§24-6-402(4)(a)(b) and (e) C.R.S. with no electronic record created as Mr. Porzak opined the
contents of the discussion would contain privileged attorney-client communications.*

Mr. Jorgenson requested the Board continue Executive Session to receive legal advice regarding the Traer
Creek Tank, pursuant to §24-6-402(4)(a)(b) and (e) C.R.S. He asked that no electronic record be made, as
the discussion would be entirely privileged attorney-client communications. Upon motion duly made and
seconded, it was unanimously

RESOLVED to enter executive session at 10:25 a.m. to discuss attorney-client privileged
issues concerning the Traer Creek Tank, pursuant to §24-6-402(4)(a)(b) and (e) C.R.S. with
no electronic record created as Mr. Jorgenson opined the contents of the discussion would
contain privileged attorney-client communications.*

The regular meeting resumed at 11:04 a.m.
ADJOURNMENT

There being no further business to come before the Board, the meeting adjourned at 10:28 a.m.

Respectfully submitted,
