A special meeting of the Board of Directors of the Upper Eagle Regional Water Authority (Authority) was held October 26, at 8:30 a.m., in the Cortina I Ballroom of the Arrabelle at Vail Square at 675 Lionshead Place, Vail, Eagle County, Colorado, in accordance with the applicable statutes of the State of Colorado.

ATTENDANCE

The following Directors were present, thereby constituting a quorum:

- Kim Bell Williams, EagleVail Metropolitan District
- Geoff Dreyer, Arrowhead Metropolitan District
- Pam Elsner, Beaver Creek Metropolitan District
- George Gregory, Berry Creek Metropolitan District, via phone
- Sarah Smith Hymes, town of Avon

The following Director was absent and excused:

- Mick Woodworth, Edwards Metropolitan District

The following Alternate Director was present and acting:

- Bill Simmons, Edwards Metropolitan District

Also in attendance were:

- District Staff
- Linn Brooks
- Jason Cowles
- Carol Dickman
- Catherine Hayes
- Diane Johnson
- John McCaulley
- Siri Roman
- Micah Schuette
- Jason Sica

Consultants

- Steve Bushong, Porzak Browning & Bushong LLP
- Jim Collins, Collins Cockrel & Cole
- Kristin Moseley, Porzak Browning & Bushong LLP
- Glenn Porzak, Porzak Browning & Bushong LLP

Public

- Mike Reisinger, Berry Creek Metropolitan District

DISCLOSURES OF POTENTIAL CONFLICTS OF INTEREST

The Board noted it had received more than 72 hours prior to the meeting certain disclosures of Potential Conflicts of Interest for the following Directors indicating the following conflicts:

Director Elsner disclosed her membership with the Vilar Performing Arts Center Guild, which operates within the Authority's service area. Director Gregory and alternate Director Simmons disclosed that they serve on the Board of the Eagle River Water and Sanitation District. Director Gregory also disclosed that he occasionally undertakes small development and construction activities within the Authority and District service areas. Alternate Director Simmons noted he serves on the Edwards Metropolitan District board and is employed by Beaver Creek Metropolitan District, an Authority member. Director Williams disclosed that she is the Eagle County Housing Director. Director Woodworth disclosed that he is employed by the Eagle River Fire Protection District, which operates within the Authority’s service area.

CALL TO ORDER

Acting Chair Hymes called the meeting to order at 8:38 a.m.

ACTION ITEMS

Consideration of Minutes – The minutes of the regular meeting of September 28, 2017, were considered. Upon motion duly made and seconded, it was unanimously RESOLVED that the minutes of the September 28, 2017, regular meeting be accepted and hereby are approved as amended.

Request for Modification of Tap Fee Deferral by 6 West Developer – Mr. Cowles discussed a request from the 6 West developer for the Authority to modify its tap fee for affordable housing policy, a copy of which is attached hereto as Exhibit A and incorporated herein by this reference. Mr. Cowles said the developer had expected a ten-year deferral of Eagle County’s property tax, which did not come to fruition and which the developer believes is now affecting the development’s
cash flow. The developer requested deferral of the Authority’s tap fee for ten years or upon sale of
the development, whichever occurred sooner. The board discussed the request and declined to
modify its current policy. Staff also pointed out the Authority’s fee structure is based on square
footage, which is equitable and also advantageous to high density projects. The Board further
clarified that only the affordable housing portion of any project would qualify for tap fee deferral.

STRATEGY
There were no strategy items for discussion.

GENERAL MANAGER REPORT
Ms. Brooks discussed her report, a copy of which is attached hereto as Exhibit B and incorporated
herein by this reference. Monthly reports were acknowledged, copies of which are attached hereto as
Exhibit C and incorporated herein by this reference.

Regional Water Efficiency Plan Update – Ms. Brooks reported that a draft of the regional water
efficiency plan is nearing completion. She requested a comprehensive review from the water
demand management subcommittee, Authority Director Woodworth and District Director Coyer.
She noted the plan would provide important supporting information for future water supply
projects of the Authority and District.

FINANCE REPORT
Mr. Wilkins presented the monthly finance report, a copy of which is attached hereto as Exhibit D and
incorporated herein by this reference. He noted the July spike in water sales may have been weather-
related. Discussion ensued regarding water use per SFE; the amount budgeted for 2018 was the same
as 2017. Such number would be adjusted in response to continued annual trends.

Draft 2018 Budget – Mr. Wilkins discussed the draft FY 2018 budget and related materials,
copies of which are attached hereto as Exhibit E and incorporated herein by this reference. He
noted the Authority is maintaining a slight surplus, likely due to optimization of operations. Mr.
Wilkins also noted staff anticipates bonding in 2019, not 2018 as originally thought. The budget
committee, Directors Dreyer and Gregory, discussed the annual budget process and noted the
process was smooth and they were comfortable with the proposed budget. A public budget
hearing for formal approval of the budget was noticed for the Nov. 16 board meeting.

OPERATIONS REPORT
The operations report was presented, a copy of which is attached hereto as Exhibit F and incorporated
herein by this reference.

ENGINEERING REPORT
Mr. Cowles discussed his report, a copy of which is attached hereto as Exhibit G and incorporated herein
by this reference.
COMMUNICATION AND PUBLIC AFFAIRS REPORT

Ms. Johnson presented her report, a copy of which is attached hereto as Exhibit H and incorporated herein by this reference.

GENERAL COUNSEL REPORT

Traer Creek Tank Update – Mr. Collins and Mr. Cowles discussed the Traer Creek Tank. Mr. Collins reported the Authority’s insurer maintains its stance that a repaired tank would not be insurable. Progress continues on Traer Creek’s repair analysis, however, and staff is keeping up on these developments. Staff is also making some progress on a replacement plan.

Edwards Water Pressure Issues – Mr. McCaulley said staff continues to monitor pressure issues in the Riverwalk area, including the use of data loggers to observe pressure events. Staff is meeting with an independent sprinkler specialist next week to evaluate their fire sprinkler systems and to install additional pressure data loggers. Recent homeowner claims against the Authority were submitted to its insurer, though staff completed considerable investigation and determined such pressure events were confined to individual homes, not the Authority’s water supply system.

WATER COUNSEL REPORT

Proposed 2018 Cash-in-Lieu of Water Rights Fees – Mr. Porzak presented an updated water dedication policy that included proposed 2018 cash-in-lieu of water rights fees, a copy of which is attached hereto as Exhibit I and incorporated herein by this reference. The changes would be approved with the 2018 budget, and the consideration of rate increase was noticed for the November meeting. The policy includes increases for summertime water ($9,000/acre foot) and wintertime storage water ($35,000/acre foot). Such fees reflect the projected cost of enlarging Eagle Park Reservoir.

EXECUTIVE SESSION

Mr. Collins requested the Board enter Executive Session to receive legal advice regarding cybersecurity, pursuant to §24-6-402(4)(b) and (e) C.R.S. He asked that no electronic record be made, as the discussion would be entirely privileged attorney-client communications. Upon motion duly made and seconded, it was unanimously RESOLVED to enter Executive Session at 9:25 a.m. to discuss attorney-client privileged issues concerning cybersecurity, pursuant to §24-6-402(4)(b) and (e) C.R.S. with no electronic record created as Mr. Collins opined the contents of the discussion would contain privileged attorney-client communications.*

Mr. Porzak requested the Board continue Executive Session to receive legal advice regarding Eagle Park Reservoir and Bolts Lake, pursuant to §24-6-402(4)(b) and (e) C.R.S. He asked that no electronic record be made, as the discussion would be entirely privileged attorney-client communications. Upon motion duly made and seconded, it was unanimously
RESOLVED to continue Executive Session at 9:42 a.m. to discuss attorney-client privileged issues concerning Eagle Park Reservoir and Bolts Lake, and CRCA matters, pursuant to §24-6-402(4)(b) and (e) C.R.S. with no electronic record created as Mr. Porzak opined the contents of the discussion would contain privileged attorney-client communications.*

Mr. Bushong entered the meeting at 9:58 a.m.

The regular meeting resumed at 10:25 a.m.

**Climax Mine and Molybdenum Standards** – Mr. Bushong discussed Climax’s request to increase statewide molybdenum standards for domestic water supplies and agriculture significantly from their current allowable levels. Toxicology experts are reviewing the proposed standards on behalf of the Authority, District, and other stakeholders. Mr. Bushong noted the singular study Climax is using as evidence to support its request is concerning on many levels. The opponents of the increased standards will submit a consolidated pre-hearing statement by the following day’s deadline.

**Eagle Mine Update** – Mr. Bushong also reported on the recent record of decision regarding the Eagle Mine cleanup efforts. He discussed the history of the Eagle Mine, and cleanup efforts in the 90s. Despite such cleanup, the Mine still adds heavy metals to the surrounding environment and stream, affecting aquatic life and complicating Authority and District treatment operations. The Environmental Protection Agency (EPA) and Colorado Department of Public Health and Environment (CDPHE) recently ruled on the Mine’s proposed cleanup plans, for which the Authority and District submitted extensive comments. Many of the comments were included in the required cleanup measures. The Eagle Mine water treatment system will be expanded, further reducing metals loading to the stream. The system will also undergo more rigorous inspection and maintenance. Additionally, at operational unit 3, contaminated soils in the area will be removed and buried at the consolidated tailings pile with a three-foot layer of soil to preclude human contact. Mr. Bushong cautioned that any water supply development projects at or near the Eagle Mine would need to avoid the contaminated soils. Staff and consultants will continue to monitor the conditions at the Mine and the water quality there, but are pleased with the increased cleanup requirements. Ms. Brooks thanked staff and consultants for their efforts with the matter.
ADJOURNMENT

There being no further business to come before the Board, the meeting adjourned at 11:19 a.m.

Respectfully submitted,
